

## Gauges, Indicators & Displays

---

1	left multi-function display	The display includes the following functions: <i>Display Check.</i>
	coolant temperature meter	Shows coolant temperature (page 26 ). Fahrenheit (°F) or Centigrade (°C).
	speedometer	Shows riding speed in miles or kilometers per hour (page 28).
2	tachometer	Shows engine speed in revolutions per minute (rpm). <i>Meter Check.</i>
3	tachometer red zone	Shows excessive engine rpm range (indicated from the beginning of the tachometer red zone) in which operation may damage the engine. Do not let the tachometer segment enter the red zone.
