# If the "-" is Blinking in the Gear Position Indicator While Riding (GL1800BD/D/DA)

If the "-" is blinking in the gear position indicator while riding, you may have a serious problem with the Dual Clutch Transmission system.

Park your motorcycle in a safe place and have your motorcycle inspected by dealer immediately.

It may be possible to ride your motorcycle by following the steps below.

- 1. Turn the ignition switch to OFF.
- **2.** Turn the ignition switch to ON and start the engine.

#### If you cannot start the engine:

Turn the ignition switch to OFF and move the motorcycle back and forth slightly (to disengage the gears).

Turn the ignition switch to ON again and start the engine.

## If you still cannot start the engine:

Start the engine while applying the brake lever or pressing the brake pedal.

### If you can shift from N to D range:

When a gear position is shown in the gear position indicator, you can ride in that gear. Take your motorcycle to your dealer riding at a safe speed.

# If you can't shift from N to D range and the "-" is blinking:

Possible damage to the DCT is preventing you from riding.

Have your motorcycle inspected by your dealer immediately.
